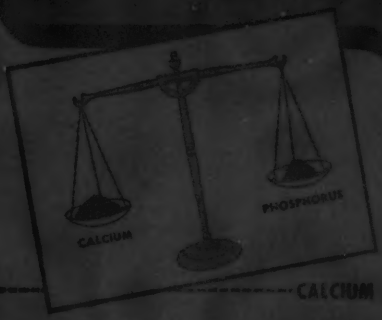
Actual tests show Pard's supplies optimum Calcium and Phosphorus in proper balance



The ratio of Calcium to Phosphorus appears to be more important than the actual amounts present. The scale illustrates the nutritional balance achieved thru proper ratio of Calcium to Phosphorus in Pard dog food.

CALCIUM AND PHOSPHORUS CONTENT OF PARD

Based on requirements for rapid growth of pups, and for the female during gestation and lactation.

CALCIUM—Essential, in combination with phosphorus in proper ratio, and with vitamin D, for normal bone and tooth structure. Also important in certain functions of heart, nerve and muscle tissue.

PHOSPHORUS—Vital, in combination with Calcium in proper ratio, and with vitamin D, for normal bone and tooth structure. Necessary for activation of certain enzymes. Important in metabolism of carbohydrates and fats and normal activity of the muscles.

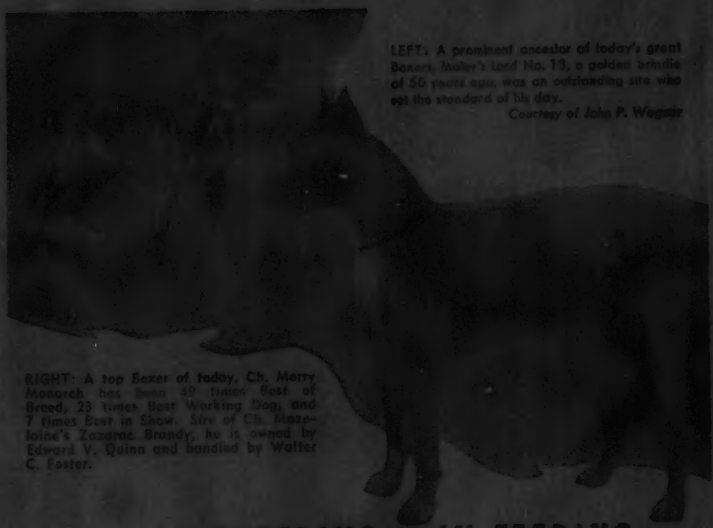
KEN-L-BISKIT

The Dog Food of Champions



LEFT: A prominent ancestor of today's great Boxers, Nolar's Lord No. 13, a golden brindle of 50 years ago, was an outstanding sire who set the standard of his day.

RIGHT: A top Boxer of today, Ch. Merry Monarch has been 19 times Best of Breed, 23 times Best Working Dog, and 7 times Best in Show. Sire of Ch. Mazelaine's Zazarac Brandy, he is owned by Edward V. Quinn and handled by Walter C. Foster.

IN BREEDING... IN FEEDING...

Standards Change!

Fifty years ago "tea or ale according to the proportion and weight of the dog" were among the foods included in a conditioning diet. Today scientific advances have produced more exact knowledge of a dog's nutritional needs, and at the same time have made it possible to meet his needs with single, convenient prepared foods.

The Gaines formula of 19 years ago was a first, great step—sensationally ahead of its time. As later research set new standards, Gaines scientists improved the formula to keep pace with widened knowledge—helped lead the way to still higher standards.

Continuous improvement makes the Gaines of today a food that more than meets standards of today—that supplies every element dogs are now known to need. A stand-by in the feeding of present-day dogs, Gaines is the leading brand among breeders—America's largest-selling dog food.
